Our Team

To tell you a little more about us, I'm our artist, David Henry. (22) Almost everything visual from models to UI is made by me and I see myself as the creative heart of our duo. Throughout my life I've always had an intense passion for gaming and the second I loaded up Final Fantasy XII for the first time in my PS2 all those years ago I knew that video games are what I wanted to do for the rest of my life.

After growing over the years and teaching myself to model, I met the brilliant coder of our team, Mixtape a.k.a. Marquis Madden (22) in my junior year science class. We hit it off immediately and he became the backbone of this duo as well as one of my closest friends. He grew up playing Halo on his Xbox and always wanted to create compelling and immersive experiences and by teaching himself to code, we became 2 halves of a whole!

We call that whole, Craptop Studios. Nice to meet you!
